

Why support The Intrepid Foundation?

Since 2002, The Intrepid Foundation has supported over 130 organisations across the world. Throughout our journey, we've combined our purpose of connecting people through travel with our desire to make an impact.

Support communities around the world

Our focus is on United Nations Sustainable Development Goal 8: creating economic opportunities through the tourism and hospitality industry, and helping improve working conditions and opportunities, particularly for women, youth and minorities.

By supporting partners that create jobs and provide skills training in the places we visit, we can help improve people's living standards, economically empower individuals, and support communities in becoming financially sustainable.

Other ways to support communities

Over the years The Intrepid Foundation has run a variety of campaigns and appeals. You can contribute financially through an appeal, as well as participate in events such as fundraising walks or cycling challenges. In times of disaster we often run appeals to support those impacted. In 2021 we ran appeals for India and Myanmar as they faced desperate times.
